

AIDETSM Five Fundamentals of Patient Communication

Tool 9: AIDET LOG

Practice AIDET to more effectively communicate with patients, families, co-workers, and physicians. This log (available in each AIDET participant guide) will help you to record and track your success. Use AIDET in your work setting and use this log to self-assess on a scale of 1-5 your success and make notes on your progress. Allow another person to observe and rate you as you do this. Provide this log to your leader so they can provide observations and comments as well.

Name		Rating (1=Very Poor, 5=Excellent)				
A	Self-assessment:	1	2	3	4	5
	Third-person observation:	1	2	3	4	5
	Notes:	_____				

I	Self-assessment:	1	2	3	4	5
	Third-person observation:	1	2	3	4	5
	Notes:	_____				

D	Self-assessment:	1	2	3	4	5
	Third-person observation:	1	2	3	4	5
	Notes:	_____				

E	Self-assessment:	1	2	3	4	5
	Third-person observation:	1	2	3	4	5
	Notes:	_____				

T	Self-assessment:	1	2	3	4	5
	Third-person observation:	1	2	3	4	5
	Notes:	_____				

Leader notes:
